¹ The Internal Revenue Code limit on employee contributions was \$18,000 in 2016.

² Other may include plans with maximum employee contribution criteria that varies, for example based on employees' length of service (e.g., an employee may contribute up to three percent during their first three years of service and up to five percent thereafter).

³ Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using data from the National Compensation Survey publication, "Employer Costs for Employee Compensation - March 2016."

Note: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20162017.htm.
